Sir:

The amendments, contained in the enclosed Version with Markings, and below remarks are submitted in response to the communication mailed 28 April 2005.

REMARKS

Applicants respectfully disagree with the statement made in the PTO communication mailed 28 April 2005 that "Applicants' amendment necessitated the new ground(s) of rejection ..." which permitted that communication to be "FINAL". Originally filed claim 15, for example, stated that "said top and bottom fastening devices are disposed for attachment only to the wall for enabling relative positioning thereof with respect to one another both to provide a maximum ability to establish any desired positioning therebetween and for accommodating any unevenness that may exist in the wall" (emphasis supplied). Therefore, any added language presented in claims 1 and 15, for example, merely elucidate what was stated in originally presented claim 15. Accordingly, the 28 April 2005 communication should not have been made final and the present amendment should be entered and the amended claims examined.
